

SilverBullet Tic Tac Toe Administration manual

In this manual you will get direction on how to install and deploy SilverBullet's Tic Tac Toe game.

To deploy on a local machine:

- Clone the repository from Github:
 - `git clone git@github.com:HUGB-SilverBullet/TicTacToe.git`
- Navigate to folder:
 - `cd TicTacToe`
- Create package:
 - `./bin/package`
- Run Spark server
 - `./gradlew run`
- Access with browser at <http://localhost:4567/>

To deploy on external server:

- Create a Heroku app.
- Run script (deploys to Heroku app directly)
 - `./bin/deploy`
